Art Unit: 3762

Claim Rejections - 35 USC § 112

1. Claims 22-34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In the above claims, the electrodes should be set forth as being 'adapted to be' attached to the patient's vagus nerve, in order to avoid inadvertently claiming a part of the human body, which is, of course, non-statutory subject matter.

Claim Rejections - 35 USC § 102

2. Claims 22-37 are rejected under 35 U.S.C. 102(b) as being anticipated by Zabara (5025807).

See previous office action.

Double Patenting

- 3. Claims 22-31 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-21 of U.S. Patent No. 6,622,038. Although the conflicting claims are not identical, they are not patentably distinct from each other because they are considered to be obvious over one another.
- 4. Claims 22-31 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 23-37 of copending Application No. 10/661,641. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the present

application are considered to render obvious the structure set forth in the claims of the '641 application.

This is a <u>provisional</u> obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

The remarks made by applicant have been considered. However, the above rejections are still deemed to be proper. Zabara is considered to encompass all of the *structure* of the above claims. Where the electrodes are located, once implanted into the patient's body, does not change the structure of the device. Such statements of placement of the electrodes are considered to be intended use only.

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Art Unit: 3762

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Scott M. Getzow whose telephone number is (571) 272-4946. The examiner can normally be reached on M-F, 9-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Angela Sykes can be reached on (571) 272-4955. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
